

Strengthening Our Leadership Team for the Next Phase of Growth

Autonomous Guard is pleased to announce the expansion of its executive leadership team with the appointment of three highly experienced industry leaders.

These strategic additions reinforce our commitment to innovation, international growth and delivering advanced defense and security solutions to our customers worldwide.

Welcoming Our New Leadership

Shimon Litman - Vice President of Sales & Business Development

Bringing extensive experience in the defense industry and a proven track record in international business development, Shimon will lead Autonomous Guard's global commercial endeavors, expand strategic partnerships with government, defense organizations for driving sustainable international growth. His leadership will play a pivotal role in accelerating Autonomous Guard's global growth and expanding the reach of its advanced autonomous security solutions.

Aviram Shmueli - Chief Technology Officer (CTO)

With more than 20 years of experience in the defense industry, Aviram brings extensive expertise in robotics, UAVs, attack drones & interceptors, autonomous systems and multidisciplinary defense technologies. His broad systems engineering background and proven ability to transform advanced concepts into mission-ready solutions will drive the next generation of Autonomous Guard's technologies.

Aviram will lead the vision & accelerated innovation across the company's portfolio while ensuring its solutions remain at the forefront of technology & operational performance, AI-driven capabilities and evolving defense challenges. By aligning research, engineering and product development Aviram will drive the next generation of Autonomous Guard's solutions to address emerging threats and dynamic customer requirements.

Idan Alon Chief Executive Officer - BeeSense

As BeeSense enters its next phase of growth, we are pleased to welcome Idan Alon as our new Chief Executive Officer (CEO). Idan will lead the company's global expansion strategy and strengthen its international presence expanding BeeSense's global footprint, building strategic partnerships and driving the company's continued international growth. With over 20 years of experience in the defense industry, electro-optics and advanced sensing technologies, Idan brings a strong combination of business leadership, technological expertise and market insight. He will focus on

As Autonomous Guard continues to grow, we remain committed to pushing the boundaries of defense technologies. The addition of these exceptional leaders strengthens our ability to innovate, scale globally and create lasting value for our customers, partners and stakeholders.

Welcome to the team we look forward to shaping the future together.
